EXPERIENCE

Associate Software Engineer

June 2025 - Present

Infor

Remote

- Working on the Mongoose framework for building low/no code enterprise apps

Software Development Intern

May 2024 - Aug 2024

Infor

Alpharetta, GA

- Created an end-to-end proof of concept for a new feature in an RPA application, automating web and desktop workflows within remote desktop applications using computer vision and Windows API libraries.
- Introduced Testcontainers to a Spring Boot REST API for integration testing with the SQL Server database.

EDUCATION

BS Computer Science, The University of Georgia

Aug 2022 - May 2025

PROJECTS

Mapthens

- Designed and developed a full-stack web application that displays all the local events happening in Athens, GA with their details on an interactive map.
- Implemented two endpoints for AWS Lambda in Go: one for scraping daily event data & storing in an S3 bucket as JSON, another for fetching the JSON data from S3. The vanilla JS frontend uses the latter and the Mapbox API to display event info.

GitSharp

- Working on a minimalist version control system based on Git in C#

SKILLS

Languages

C#, Python, SQL

Technologies

AWS, SQL Server, ASP.NET, Git
