## EDUCATION

---

**BS Computer Science**, The University of Georgia

Aug 2022 - May 2025

## SKILLS

---

<b>Languages &amp; Frameworks</b>	C#, Python, SQL, ASP.NET
<b>Cloud Technologies &amp; Databases</b>	AWS, SQL Server
<b>Development Tools &amp; Practices</b>	Visual Studio, Git, Scrum

## EXPERIENCE

---

**Associate Software Engineer**

Infor

June 2025 - Present

*Remote*

**Software Development Intern**

Infor

May 2024 - Aug 2024

*Alpharetta, GA*

- Developed an end-to-end proof of concept for a new RPA Studio feature, automating complex web and desktop workflows within remote desktops with computer vision and Windows APIs.
- Improved integration testing for an REST API by creating a proof of concept that changed the testing method from mock testing to using SQL Server with Testcontainers.

## PROJECTS

---

**Mapthens**

Nov 2024

- Designed and developed a full-stack web application that displays all the local events happening in Athens, GA with their details on an interactive map.
- Implemented two endpoints for AWS Lambda in Go: one for scraping daily event data & storing in an S3 bucket as JSON, another for fetching the JSON data from S3. The vanilla JS frontend uses this endpoint and the Mapbox API to display event info.
